## BUSINESS ANALYST & MIS

omarhashimi12@gmail.com • linkedin.com/in/sayedhashimi12 • github.com/SayedOmarHashimi • Sacramento / San Francisco, CA

### SUMMARY

Business Analyst and MIS graduate who turns data into recommendations. I build dashboards, run market research, facilitate stakeholder interviews, and deliver full SDLC analyses for real clients across SQL, Python, and modern data tooling.

### EXPERIENCE

Operations Associate

State of California, Government Operations Agency

Jun 2026 – Aug 2026

- Provide analytical, technical, and administrative support in the Secretary's Office, participating in policy team meetings and interagency discussions on statewide operational priorities.
- Review, gather, compile, and analyze data and materials to support the development of policy documents, guidance materials, and operational summaries.
- Prepare and organize materials for meetings and ongoing initiatives, documenting operational issues, policy proposals, and coordination between GovOps and partner departments.
- Conduct supervised research on statewide operations, statutory and regulatory requirements, and process-improvement efforts, contributing recommendations and potential solutions.

Business Analyst

FitLink

Dec 2025 – May 2026

- Built and maintained weekly growth-tracking dashboards in Excel, auditing and reconciling key performance indicators to monitor trends and inform outreach strategy in near real time.
- Conducted competitive market research on comparable platforms, compiling and analyzing findings into synthesis reports that supported product and outreach recommendations.
- Presented data-based insights during bi-weekly strategy discussions, contributing to improved targeting efficiency and supporting management decision-making.
- Forecasted engagement patterns to help plan, monitor, and evaluate outreach initiatives, coordinating with stakeholders to ensure data accuracy across work products.

### SELECTED PROJECTS

**California Wildfire Risk & Spread Simulation** *Python, scikit-learn, geopandas, Streamlit*. ML ignition-risk model on a 1 km grid with a cellular-automaton spread simulation calibrated against the 2018 Camp Fire. PR-AUC 0.226 under spatially blocked cross-validation against a 0.048 baseline; spread IoU 0.595.

**Nuclide Explorer** *Next.js, React, TypeScript, dbt, Postgres*. Interactive chart of all 3,386 known nuclides over the IAEA Livechart API. Python ingestion and layered dbt models on Neon Postgres reconcile source quirks into a typed schema, behind a Zod-validated public JSON API.

**DONKI Space Weather Dashboard** *Python, dbt, DuckDB, GitHub Actions*. End-to-end automated pipeline tracking solar flares, coronal mass ejections, and geomagnetic storms from NASA DONKI and NOAA SWPC, transformed with dbt and republished daily on free infrastructure.

**Hospital Management BI Solution** *Tableau, SQL, ETL*. Eight-dashboard BI suite over billing, appointment efficiency, treatment performance, and no-show analysis, on a five-table relational schema.

### EDUCATION

B.S. Management Information Systems

California State University, Sacramento

Aug 2024 – May 2026

- GPA 3.5. Dean's List, Dean's Honor List.

### SKILLS

#### Languages

SQL, Python, TypeScript, JavaScript, HTML/CSS

#### Web & Application

Next.js, React, Tailwind CSS, Supabase, Streamlit, Vercel

#### Data & Analytics

pandas, NumPy, scikit-learn, SciPy, Excel, Tableau

#### Business Analysis

Requirements gathering, BPMN, use case modeling, ER modeling, SDLC

#### Data Engineering

dbt, DuckDB, PostgreSQL, MySQL, ETL design, GitHub Actions

#### Research & Strategy

Market research, competitive analysis, stakeholder interviews, NPV modeling

### CERTIFICATIONS & ELIGIBILITIES

- **Foundations: Data, Data, Everywhere**, Google
  - **Information Technology Associate**, CalCareers. List 18678, Rank 2
- **Salesforce Certified**, Salesforce
  - **Analyst I, Active Eligibility**, CalCareers. List 19089
